PURCHASED POWER ADJUSTMENT CLAUSE:

All electric rate schedules are subject to a Purchased Power Adjustment Clause (PAC) factor applied uniformly to all KWHs. The PAC factor will increase or decrease based on the cost of purchasing electricity during the previous month. The utility reserves the right to adjust for the difference between the previous month and the current month's average cost of purchased power on subsequent bills.

POWER FACTOR ADJUSTMENT CLAUSE:

(for Industrial Rate only)
If it is determined by recorded measurement that a customer's power factor is less than 95 percent during the period of customers maximum demand, the demand shall be increased by the ratio of 95 percent to the actual power factor.

REFUSE HAULING:
Effective Date July 1, 2026
